### PROFESSIONAL EXPERIENCE

#### Project & Operations Management

- Broad experience from overseeing commercial building projects to multimillion dollar training programs resulting in a training plan still currently utilized by a population of 16,000 Paratroopers.
- Ensured combat readiness of 300+ personnel, 45 tactical vehicles, 18 communication systems worth in excess of \$34 million without loss.

#### Leadership

- Motivated, empowered, and coached over 500 junior leaders to achieve high promotion standards through goal-driven leadership.
- Proud to establish a non-profit landscaping and construction LLC with the goal of assisting young adults, senior citizens, and veterans based on ingenuity, critical thinking, responsibility, and hard work.

#### Construction & Landscaping

- Versatile in carpentry and woodworking with background in residential, municipal construction, and remodeling to include framing, trim, windows, doors, and siding.
- Experience reading blueprints, project plans, and specifications; material selection, tools and equipment, cost estimate, and prioritize tasks to minimize production delays.
- Proven expertise in project/team supervision; excel at communicating with clients, suppliers, architects, and subcontractors to deliver results keeping with the client's intent.

#### Interpersonal Communication

- Enthusiastic, knowledge-hungry learner with the aim of attaining a long term career in a field I love; getting my hands dirty and teaching the next generation of construction workers.
- Energetic and dedicated leader recognized for "unbridled passion for work, bright disposition and upbeat, positive attitude, loyal to superiors and juniors alike".

#### Problem Solving

- Handpicked by 4-Star General Command as Strategic Intelligence team leader providing data collection and instant threat analysis of foreign terrorists, land, air, and sea attacks against the homeland.
- Addressed shortfalls within the Joint Operational Planning Process resulting in approved Joint Chiefs of Staff Concept Plan against all worldwide missile and space threat streams.

#### Resource Management

- Planned and resourced strategic forcible entry into a foreign nation by parachute assault within the confines of a restricted budget, limited resources, short deadlines, and minimal support from management.
